Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund and the aggregate remaining fund information of the Williamsport Area School District (the District), as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund and the aggregate remaining fund information of the District as of June 30, 2022, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (GAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and GAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and GAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the required supplementary information, as listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* as listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 15, 2022 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Management's Discussion and Analysis (Unaudited)

June 30, 2022

Our discussion and analysis of the Williamsport Area School District's (the District) financial performance provides an overview of the District's financial activities for the year ended June 30, 2022. The intent of this discussion and analysis is to look at the District's financial performance as a whole. It should be read in conjunction with the basic financial statements to enhance understanding of the District's financial performance, which immediately follows this section.

Financial Highlights

Key financial highlights for the fiscal year 2022 are as follows:

- State revenues are the main source of funding for the Williamsport Area School District. In 2021-2022, total General Fund state revenue increased 3.04%. The District received \$50,284,944 in state revenue during 2022 making up 50.66% of the total revenue. The District's contribution to the Public School Employees' Retirement System (PSERS) increased from 34.51% of salaries to 34.94% of salaries. While some of the state revenue increase was due to the state funding a portion of this changing rate, our expenditures for this program also increased. The PSERS rate increase is expected to rise from the 35.26% in 2022-23 to over 37.00% in future years.
- Real Estate Tax is the main source of local funding for the District. This revenue comprises 24.85% of total General Fund revenues and is one of the only revenue source over which the School Board has control. The tax revenue received from real estate tax increased from 2021 by \$348,993 or 1.44%. Increasing costs for the PSERS, as described above, as well as the cost of other employee benefits are primary factors in the need for a millage increase. The millage rate increased to 17.24 mills, up from 16.89 mills in 2021.
- Earned Income is taxed at 1.00%. The District recognized \$11,834,834 in earned income tax revenue in 2021-22 a decrease of \$369,514 over the 2020-21 receipts.
- Federal revenue recorded in the General Fund increased from \$9,272,756 in 2020-21 to \$10,421,779 in 2021-22. Although federal revenues fluctuate from one year to the next, the largest portion of the increase in federal revenue is due to the receipt of additional American Rescue Plan Funding in the amount of approximately \$1,200,000 during 2022.
- The total revenues for the General Fund were \$99,265,128. This is an overall increase of \$1,904,379 over the prior year. The major reasons for these increases are described above.
- Expenditure levels in all governmental funds increased from the prior year \$90,821,816 to \$93,580,258. Instructional, noninstructional services, and capital outlay expenditures increased by \$3,666,332; while support services and debt service expenditures decreased by \$907,890.
- Capital assets in the Governmental Activities have been reported at \$201,252,571 and accumulated depreciation of \$106,705,481 for a net capital asset value of \$94,547,090. The amount listed represents the historical costs of all sites, site improvements and furniture and equipment with a unit value of at least \$2,500.
- The General Fund's fund balance increased from \$23,435,543 to \$26,803,735. Of this amount, \$5,025,000 is set aside for various capital projects. It is also important to note that in anticipation of the increase in retirement contributions in subsequent fiscal years, the Board has proactively decided to designate fund balance to "level-out" the financial impact. The current amount committed to fund retirement is \$5,380,184. The District recognizes that with the uncertainty of the impact of COVID-19 on future District expenses such as technology, personal protective supplies, anticipated increases in cyber charter tuition that is it fiscal responsible to set aside funds for these potential expenses. Thus, the District has assigned \$2,000,000 of the fund balance for these expenses. Additional assignments include set asides for technology needs, and capital needs and equipment.

Management's Discussion and Analysis (Unaudited)
June 30, 2022

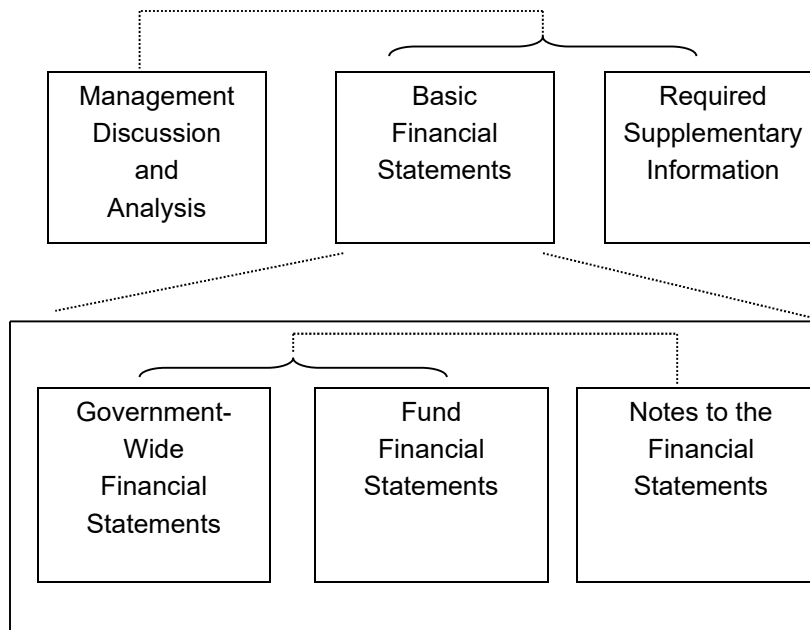

- The School District's governmental fund financial statements report a combined ending fund balance of \$58,408,857. In addition to the \$5,000,000 noted above, an additional amount of \$6,298,458 of this ending fund balance is restricted for future capital expenditures, with \$25,245,123 set aside for future debt service payments.
- The District has five outstanding bond or note series, of which, two are Qualified School Construction Bonds (QSCBs). At the end of the fiscal year, the outstanding bond and note principal was \$83,904,000 with the final payment due in 2036-37.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: (1) government-wide financial statements, (2) fund financial statements and (3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Figure A-1 shows how the required parts of the Financial Section are arranged and relate to one another:

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances in a manner similar to a private-sector business. The *statement of net position* presents information on all of the District's assets and liabilities, with the difference between the two reported as *net position*. The *statement of activities* presents all of the current year's revenues and expenses regardless of when cash is received or paid.

The two government-wide statements report the District's net position and how it has changed. Net position is one way to measure the District's financial health or position.

Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating, respectively. However, to assess the overall health of the District, you need to consider additional nonfinancial factors such as changes in the District's property tax base and the performance of the students. The government-wide financial statements of the District are divided into two categories:

- *Governmental activities* - All of the District's basic services are included here, such as instruction, administration and community services. Property taxes and state and federal subsidies and grants finance most of these activities.
- *Business-type activities* - The District operates a food service operation and charges fees to staff, students and visitors to help cover the costs of the food service operation.

Fund Financial Statements

The District's fund financial statements provide detailed information about the most significant funds, not the District as a whole. Some funds are required by state law and by bond requirements.

- *Governmental Funds* - Most of the District's activities are reported in governmental funds, which focus on the determination of financial position and change in financial position, not on income determination. They are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's operations and the services it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.
- *Proprietary Funds* - These funds are used to account for the District activities that are similar to business operations in the private sector; or where the reporting is on determining net income, financial position, changes in financial position and a significant portion of funding through user charges. When the District charges customers for services it provides - whether to outside customers or to other units in the District - these services are generally reported in proprietary funds. The Food Service Fund is the District's proprietary fund and is the same as the business-type activities we report in the government-wide statements, but provide more detail and additional information such as cash flows.

Most of the District's net position is invested in capital assets (buildings, land and equipment). The remaining unrestricted net position (deficit) is composed of restricted and unrestricted amounts, net of the District's net pension liability pursuant to Governmental Accounting Standards Board (GASB) Statement No. 68.

For fiscal year 2015, the District implemented GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*. This standard was designed to improve accounting and financial reporting by state and local governments for pensions. As required by GASB No. 68, a liability was recorded using the actuarial report provided by PSERS and the schedules of employer allocations provided in their audited financial statements. The estimated amount of the PSERS retirement liability recorded was \$116 million as of June 30, 2022 and \$140 million as of June 30, 2021. Refer to Note 13 for further details.

The results of this year's operations as a whole are reported in the Statement of Activities on page 15. All expenses are reported in the first column. Specific charges, grants, revenues and subsidies that directly relate to specific expense categories are represented to determine the final amount of the District's activities that are supported by other general revenues. The two largest general revenues are the Basic Education Subsidy provided by the State of Pennsylvania, and the local taxes assessed to community taxpayers.

Table A-3 shows the District's eight largest functions - instructional programs, instructional student support, administrative and financial support, operation and maintenance of plant, pupil transportation, student activities, community services, interest on long-term debt as well as each program's net cost (total cost less revenues generated by the activities). This table also shows the net costs offset by the other unrestricted grants, subsidies and contributions to show the remaining financial needs supported by local taxes and other miscellaneous revenues.

The Statement of Revenues, Expenses and Changes in Fund Net Position for the proprietary fund will further detail the actual results of operations. This program should be self-supporting. The net return on these services increased by \$1,609,733 as a result of increases in the per meal subsidy and the increased number of meals served during 2022.

The District Funds

At June 30, 2022, the District's governmental funds reported a combined fund balance of \$58,408,857 which is an increase of \$3,975,528.

The General Fund had a beginning fund balance of \$23,435,543 and an ending fund balance of \$26,803,735 at June 30, 2022. Revenues and other financing sources increased from \$97,633,382 to \$99,265,128. Expenditures and other financing uses increased from \$94,484,279 to \$96,438,288.

Table A-5 shows a comparison of General Fund expenditures from 2020-21 to 2021-22. Most functions increased due to an increase in salaries and retirement contributions.

Management's Discussion and Analysis (Unaudited)
June 30, 2022

The District's General Fund revenues were \$99,265,128 in 2021-22, which were up 1.96% from the previous year. General Fund revenues for the District come from three categories. Local sources make up 38.84% of the total revenue, state sources make up 50.66% and federal sources are 10.50%. Most of the local revenue comes from tax levies set by School Code, fees, tuition and donations.

General Fund Budget

During the fiscal year, the Board of Directors authorizes revisions to the original budget to accommodate differences from the original budget to the actual expenditures of the District. All adjustments are again confirmed at the time the annual audit is accepted. A schedule showing the District's original and final budget amounts compared with amounts actually paid and received is provided on page 20.

The District applies for federal, state and local grants. These grants cannot always be anticipated in the budgeting process.

Transfers between specific categories of expenditures/financing uses occur during the year. The most significant transfers occur from the budgetary reserve category to specific expenditure areas.

Capital Asset and Debt Administration

Capital Assets

At June 30, 2022, the District invested in a broad range of capital assets, including construction in progress, land, buildings and furniture and equipment. At June 30, 2022, the investment in capital assets, net of depreciation, was \$94,547,090, a decrease of \$1,371,882. For details on the specific line-item changes, see Note 6.

Other obligations include leases, accrued vacation pay and sick leave for specific employees of the District, as well as other post-employment and pension obligations. More detailed information about our long-term liabilities is included in Notes 7 through 13 to the financial statements.

S&P Global Ratings assigned its 'A' long-term rating to Williamsport Area School District's series 2019 general obligation (GO) bonds and affirmed its 'A' underlying rating (SPUR) on the District's existing GO debt. The outlook is stable. Additional security is also provided for the bonds by the Commonwealth of Pennsylvania Act 150 School District Intercept Program. The Act provides for undistributed state aid to be diverted to bond holders in the event of default.

Reconciliation of the Balance Sheet of Governmental Funds to the Statement of Net Position
June 30, 2022

Total Fund Balances, Governmental Funds		\$ 58,408,857
Amounts reported for governmental activities in the statement of net position are different because:		
Capital assets used in governmental activities are not reported as assets in governmental funds. The cost of assets is \$201,252,571 and the accumulated depreciation is \$106,705,481.		94,547,090
Property taxes receivable will be collected this year, but are not available soon enough to pay for the current period's expenditures, and therefore, are deferred in the funds.		1,736,539
Deferred outflows, are not reported in the governmental funds, however are reported in the statement of net position.		24,963,398
Deferred inflows, are not reported in the governmental funds, however are reported in the statement of net position.		(24,230,123)
Long-term liabilities are not due and payable in the current period, and therefore, are not reported as liabilities in the funds. Long-term liabilities at year-end consist of:		
Bonds and notes payable, net	(84,552,870)	
Lease obligations	(196,649)	
Accrued interest on bonds and notes payable	(1,318,668)

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds
to the Statement of Activities
Year Ended June 30, 2022

Total Net Change in Fund Balances, Governmental Funds \$ 3,975,528

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeds depreciation in the period (this information relates only to governmental fund activity - capital activity related to the District's Internal Service Funds would need to be included in order to reconcile this data to the capital asset note disclosure on page 35):

Capital outlays	5,096,566	
Depreciation expense	<u>(5,963,264)</u>	(866,698)

Capital assets used in governmental activities are not reported as assets in the governmental funds. Thus upon the sale of a capital asset, the governmental fund records revenue for the gross proceeds of sale, while the statement of activities records an adjustment to the gain (loss) on disposal. (501,366)

Because some property taxes will not be collected for several months after the District's fiscal year ends, they are not considered available revenues in the governmental funds. Unearned tax revenues decreased by this amount this year. 303,629

The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts and prepaid insurance when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. During the fiscal year ended June 30, 2022, the following transactions factor into this reconciliation:

Retirement of principal of bonds payable	530,000	
Unamortized refunding charges	(17,107)	
Amortization of premium and unamortized refunding charges, net	47,087	
Issuance of extended term financing (lease obligations)	(104,439)	
Repayment of principal, lease obligations	<u>60,517</u>	516,058

Interest on long-term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the statement of activities, interest expense is recognized as the interest accrues, regardless of when it is due. The additional amount due over the interest accrued in the statement of activities is shown here, net of federal subsidy for Qualified School Construction Bonds. 10,045

In the statement of activities, certain operating expenses, including compensated absences (vacations and sick days) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used. This amount represents the difference between the amount earned versus the amount used. (34,754)

Other postemployment benefits payable are considered long-term in nature, and are not reported as liabilities within the funds. Such liabilities are, however, reported within the statement of net position, and changes in these liabilities are reflected within the statement of activities. This amount represents the change in other postemployment benefits payable and deferred outflows and inflows related to other postemployment benefits payable. (574,442)

Net pension liability is considered long-term in nature, and is not reported as a liability within the governmental funds. Such liability is, however, reported within the statement of net position, and changes in the liability is reflected within the statement of net position. This represents the change in pension liability and the deferred outflows and inflows related to the pension. 8,048,301

Internal service funds are used by management to account for the operations in its Tax Office Fund. The change in net position of those activities is included within the District's governmental activities. 3,779

Change in Net Position of Governmental Activities \$ 10,880,080

Williamsport Area School District

Notes to Financial Statements
June 30, 2022

1. Nature of Operations and Summary of Significant Accounting Policies

The financial statements of the Williamsport Area School District (the District) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applicable to local governments. The Governmental Accounting Standards Board (GASB) is the accepted standards-setting body for establishing governmental accounting and financial reporting principles. The more significant accounting policies of the District are described below.

Nature of Operations

The District is located in north-central Pennsylvania along the West Branch of the Susquehanna River, and includes six municipalities in Lycoming County. The District covers an area of approximately 98 square miles and serves a population of approximately 45,000 in the City of Williamsport and Hepburn, Lewis, Lycoming, Old Lycoming and Woodward Townships. Approximately 70% of the District population and 62% of the taxable real property are in the City of Williamsport.

The District assesses the taxpayers of these municipalities based upon taxing powers at its disposal. The ability of the District's taxpayers to pay their assessments is dependent upon economic and other factors affecting the taxpayers.

Reporting Entity

In accordance with GASB Statement No. 14, as amended, the District has determined that the Williamsport Area School District Education Foundation (the Foundation) should be included in the District's financial statements as a discretely presented component unit, as: the Foundation is a legally separate entity; the District appoints a voting majority of the Foundation's Board of Directors, and; the District is able to significantly influence the programs, projects and activities of the Foundation.

The Foundation is a not-for-profit organization formed to provide support for District schools, its students and faculty, and to promote, sponsor and carry out educational objectives within the District's schools. The Foundation receives contributions from individuals and businesses located mainly in Lycoming County, Pennsylvania.

The financial activity of the Foundation is presented as of and for the fiscal year ended June 30, 2022. During the year ended June 30, 2022, the Foundation distributed approximately \$263,000 in scholarships and awards to District students, fitness and musical equipment for District schools and mini-grants to District teachers.

Separate financial statements are not issued by the Foundation.

Basis of Presentation, Government-Wide Financial Statements

The government-wide financial statements include the statement of net position and the statement of activities. These financial statements report financial information for the District as a whole, on a full accrual, economic resource basis. Individual funds are not displayed but the statements distinguish governmental activities, generally supported by taxes and District general revenues, from business-type activities, generally financed in whole or in part with fees charged to customers. The District's General, Capital Projects, Debt Service and Student Activity funds are classified as governmental activities. The District's Food Service Fund is classified as a business-type activity. In addition, the District maintains an internal service fund, the Williamsport Area School District Municipal and School Income Tax Office (the Tax Office). Pursuant to GASB 34, paragraph 62, the District reports internal service fund asset and liability balances that are not eliminated in the statement of net position within the governmental activities column, as the activities reported within these internal service funds are more governmental than business-type in nature and the District is the predominant participant in the internal service fund.

Williamsport Area School District

Notes to Financial Statements
June 30, 2022

The statement of activities reports the expenses of a given function or program offset by program revenues directly connected with that function or program. A function is an assembly of similar activities and may include portions of a fund or summarize more than one fund to capture the expenses and program revenues associated with a distinct functional activity. Program revenues include (1) charges for services to users of the District's services, (2) operating grants and contributions that finance annual operating activities and (3) capital grants and contributions that fund the acquisition, construction or rehabilitation of capital assets. These revenues are subject to externally imposed restrictions to these program uses. Taxes and other revenue sources not properly included with program revenues are reported as general revenues.

Basis of Presentation, Fund Financial Statements

The accounts of the District are organized on the basis of funds, each of which constitutes a separate accounting entity. The operations of each fund are accounted for within a separate set of self-balancing accounts that comprises its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund balances, revenues and expenditures/expenses. Resources are allocated to and accounted for in individual funds based upon the purpose for which they are to be spent. The District uses the following fund types:

Governmental Fund Types

Governmental funds are those through which most governmental functions of the District are financed. The acquisition, use and balances of the District's expendable financial resources and the related liabilities are accounted for through governmental funds. The following is a description of the governmental funds of the District:

General Fund

The General Fund accounts for the general operations of the District and all financial transactions not accounted for in another fund. The General Fund is always a major fund.

Debt Service Fund

The Debt Service Fund accounts for resources accumulated for the purpose of funding general long-term debt obligations. The Debt Service Fund is a major fund.

Capital Projects Fund

The Capital Projects Fund accounts for receipt and disbursement of resources for the purpose of building or buying major capital assets. The Capital Projects Fund is a major fund.

Student Activity Fund

The Student Activity Fund accounts for the operations of the various student activity programs. The Student Activity Fund is a nonmajor fund.

Proprietary Fund Types

Proprietary Funds are used to account for activities that are similar to those often found in the private sector. The measurement focus is upon determination of net income and capital maintenance. Proprietary funds distinguish operating revenues from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations.

Williamsport Area School District

Notes to Financial Statements
June 30, 2022

The following is a description of the proprietary funds of the District:

Food Service Fund (Enterprise Fund Type)

The Food Service Fund accounts for the operations of the District's food service operations. Operating revenues consist of charges for food served. Operating expenses consist mainly of food and food preparation costs, supplies and other direct costs. All other revenues and expenses are reported as nonoperating.

Tax Office (Internal Service Fund)

The Tax Office collects and administers earned income tax on behalf of the Williamsport Area School District, the City of Williamsport and various boroughs, townships and school districts within Lycoming County. Deficiencies of revenues over expenses are financed through operating subsidies from participating governments. Operating revenues consist mainly of subsidies provided by participating governments. Operating expenses consist primarily of the salaries, wages and benefits of Tax Office employees, other purchased services and depreciation.

Measurement Focus

Government-Wide Financial Statements

The government-wide financial statements are prepared using the economic resources measurement focus. With this measurement focus, all assets, deferred outflows of resources, liabilities and deferred inflows of resources associated with the operation of the District are included on the statement of net position. The statement of activities presents increases (i.e., revenues) and decreases (i.e., expenses) in the District's net position.

Fund Financial Statements

Governmental funds are accounted for using the current financial resources measurement focus. With this measurement focus, only current assets, deferred outflows of resources, current liabilities and deferred inflows of resources generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

Proprietary funds are also accounted for using the economic resources measurement focus.

Basis of Accounting

Basis of accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied.

Accrual Basis

Government-wide financial statements and the proprietary fund financial statements are prepared using the accrual basis of accounting. For exchange transactions, revenues are recognized when earned and expenses are recognized when incurred (i.e., when each party gives and receives essentially equal value when the exchange takes place). For nonexchange transactions, in which the District receives value without directly giving equal value in return, tax revenues are recognized in the year levied while grant revenue, entitlements and appropriations are recognized when grantor eligibility requirements are met.

Modified Accrual Basis

Governmental funds use the modified accrual basis of accounting. Under the modified accrual basis, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay the liabilities of the current period. The District considers property and other taxes as available if they are collected within 60 days after year-end. A one-year availability period is used for revenue recognition for all other governmental fund revenues. Expenditures, other than principal and interest on bonds payable, compensated absences and claims and judgments, are recorded when the related fund liability is incurred. Principal and interest on bonds payable, compensated absences and claims and judgments are recorded as fund liabilities when due and unpaid.

The District reports unearned revenue on its fund financial statements. Unearned revenue arises when potential revenues do not meet both the "measurable" and "available" criteria for recognition in the current period. Unearned revenues may also arise when the District receives resources before it has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the District has a legal claim to the resources, the liability for unearned revenue is removed and revenue is recognized.

Allocation of Indirect Expenses

The District allocates certain building-related costs to the proprietary fund. It does not allocate any other indirect costs, with the exception of depreciation expense.

Budgets and Budgetary Accounting

An operating budget is adopted each year for the General Fund on a modified accrual basis of accounting.

The Pennsylvania School Code dictates specific procedures relative to adoption of the District's budget and reporting of its financial statements, specifically:

- The District, before levying annual school taxes, is required to prepare an operating budget for the succeeding fiscal year.
- The District is required to have the budget printed, or otherwise made available for public inspection at least twenty (20) days prior to the date set for the adoption of the budget. Final action may not be taken on any proposed budget in which the estimated expenditures exceed two thousand dollars \$(2,000), until after ten (10) days public notice.
- The Board may make transfers of funds appropriated to any particular item of expenditure by legislative action during the last nine months of the fiscal year. An affirmative vote of a majority of all members of the Board is required.
- Fund balances in budgetary funds may be appropriated based on resolutions passed by the Board, which authorize the District to make expenditures. Appropriations lapse at the end of the fiscal period. In order to preserve a portion of an appropriation for which expenditure has been committed by a purchase order, contract or other form of commitment, an encumbrance is recorded. Encumbrances outstanding at year's end are reported as assignments of fund balance.

Notes to Financial Statements
June 30, 2022

- Included in the General Fund budget are program budgets as prescribed by the state and federal agencies funding these programs. These budgets are approved on a program-by-program basis by the state or federal funding agency.
- Capital budgets are implemented for capital improvements and capital projects in the Capital Projects Fund. All transactions of the Capital Projects Fund are approved by the Board prior to commitment thereby constructively achieving budgetary control.
- An Enterprise Fund budget is not adopted; however, a formal budget is prepared and approved by management and expenditures are controlled on the basis of this budget.

Encumbrances

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of funds are recorded in order to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration in governmental funds. Encumbrances at year-end are reported as assignments of fund balance since they do not constitute expenditures or liabilities but serve as authorization for expenditures in the subsequent year.

Cash and Cash Equivalents

Cash and cash equivalents consist of cash and cash management liquid asset funds that are carried at cost. The District considers all investments purchased with an original maturity of three months or less (excluding certain short-term instruments which are classified as investments) to be cash equivalents.

Investments

Primary Government

Marketable securities are stated at their fair values. Adjustments to reflect increases or decreases in fair value, referred to as unrealized gains and losses, are reported as investment income. The District considers its deposits with the Pennsylvania Local Government Investment Trust (PLGIT) and the Pennsylvania School District Liquid Asset Fund (PSDLAF) to be held for investment purposes. These deposits are carried at fair market value, as reported by PLGIT and PSDLAF, which approximates cost.

Component Unit

The Foundation's investments are reported at fair value based on quoted market prices. Adjustments to reflect increases or decreases in fair value, referred to as unrealized gains and losses, are reported in the statement of activities as a nonoperating change in the general revenues section. The cost of investments sold is determined by use of the specific identification method.

All realized and unrealized gains and losses arising from the sale or appreciation (depreciation) in fair value of investments, and all income from investments, are reported as changes in net assets without donor restrictions unless their use is restricted by explicit donor imposed stipulations, or by law.

Inventories

General Fund inventories are comprised of art supplies, auto parts, custodial supplies, fuel oil and school opening supplies, specifically acquired for use in the subsequent fiscal year. These supplies are delivered to schools and other locations prior to the end of the fiscal year but are recognized as expenditures in the following fiscal year.

Enterprise fund inventories consisting of food service inventories include food commodities donated by the federal government, which are valued at an estimated market value. All other food or supply inventories are valued at last unit cost in accordance with the recommendations of the Food and Nutrition Service of the Department of Agriculture and are expensed as used.

Capital Assets

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements. Capital assets used by the Enterprise Fund are reported both in the business-type activities of the government-wide statement of net position and in the fund financial statements; capital assets used by the Internal Service Funds are reported in the governmental activities of the government-wide statement of net position and in the fund financial statements.

All capital assets (including right-to-use lease assets) are stated at cost or estimated cost, net of accumulated depreciation. Donated capital assets are reported at their acquisition value at date of receipt. The District maintains a capitalization threshold of \$2,500. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All capital assets (including right-to-use lease assets), except land and construction in progress, are depreciated. Construction in progress costs are accumulated until the project is complete and placed in service. At that time, the costs are transferred to the appropriate asset class and depreciation begins.

Depreciation is computed using the straight-line method over the following estimated useful lives:

	Governmental Activities	Business-Type Activities
Land improvements	15-20 years	N/A
Buildings and improvements	20-40 years	N/A
Furniture and equipment (including right-to-use assets)	5-20 years	5-15 years

The District does not have any infrastructure capital assets.

Assets Held for Capital Projects

Assets held for capital projects represent unspent funds from the District's various capital project funds.

Deferred Outflows/Inflows of Resources

In addition to assets and liabilities, the District will sometimes report a separate section for deferred outflows (inflows) of resources. This separate financial statement element represents a consumption (acquisition) of net position that applies to a future period and so will not be recognized as an outflow (inflow) of resources until that time.

Compensated Absences, Vacation

The District's collective bargaining agreements with its professional and support employees specify the vacation leave policies. District employees who are required to work on a 12 month schedule are credited with vacation at rates which vary with length of service or job classification. Vacation must be taken during the year of entitlement; however, 5 to 20 days of such leave may be carried over and used by June 30 of the subsequent year. Unused vacation is nonvesting; therefore, no liability is recorded.

Compensated Absences, Early Retirement Incentive

The District offers early retirement incentive programs to teachers. A single, lump-sum payment is made to the retiree on the last working day prior to retirement. Administrators and supervisory personnel who elect to retire early are not offered early retirement incentives. Administrative and supervisory personnel who elect to retire early are instead entitled to post-retirement healthcare benefits and continuation of life insurance coverage. Life insurance coverage is extended for 15 years, or until the retiree reaches 70 years of age, whichever occurs first.

Sick Leave and Personal Leave

Most District employees are credited annually with ten sick days, one personal day and two emergency days. Unused sick leave is accumulated from year to year, without limitation. However, accumulation of this item is limited to a maximum of 200 days of sick leave upon retirement.

Leases

The District leases certain vehicles from other entities and therefore is a lessee under the terms of these arrangements. As a lessee, the District reports a lease liability and an intangible right-to-use asset (known as the lease asset) on its government-wide and proprietary fund financial statements, where applicable. In the governmental fund financial statements, the District recognizes proceeds from extended term financing and a capital outlay at the initiation of the lease, and an outflow of resources as lease payments are made during the lease term.

Pension

The District provides eligible employees with retirement benefits through the Public School Employer's Retirement System (PSERS), a governmental cost-sharing, multiple-employer defined benefit pension plan. PSERS was established as of July 18, 1917, under the provisions of Public Law 1043, No. 343.

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of PSERS and additions to/deductions from PSERS's fiduciary net position have been determined on the same basis as they are reported by PSERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Other Postemployment Benefits (OPEB)

The District provides eligible employees with postretirement health insurance premium assistance through PSERS, a governmental cost-sharing, multiple-employer defined benefit other postemployment benefit (OPEB) plan. In addition, the District also provides eligible employees with medical, prescription drug and life insurance after retirement through the District's postemployment benefits plan, a single employer defined benefit OPEB plan.

Notes to Financial Statements
June 30, 2022

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the PSERS Health Insurance Premium Assistance Program (PSERS OPEB Plan) and the Williamsport Area School District Other Postemployment Benefits Plan (the Williamsport OPEB Plan) and additions to/deductions from the PSERS OPEB and the Williamsport OPEB plans' fiduciary net position have been determined on the same basis as they are reported by PSERS and the Williamsport OPEB Plan. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms.

Governmental Fund Balance Classifications/Policies and Procedures

GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, the District classifies its governmental fund balances as follows:

- *Nonspendable* - includes fund balance amounts that cannot be spent either because it is not in spendable form or because of legal or contractual constraints, such as inventory
- *Restricted* - includes fund balance amounts that are constrained for specific purposes which are externally imposed by providers, such as creditors or amounts constrained due to constitutional provisions or enabling legislation
- *Committed* - includes fund balance amounts that are constrained for specific purposes that are internally imposed by the District's "highest level of decision making authority" which do not lapse at year-end
 - The School Board of the District is its highest level of decision-making authority and commits funds through a formal board motion
- *Assigned* - includes fund balance amounts that are constrained for specific purposes that are internally imposed by the District
 - The School Board of the District authorized the District Business Administrator to assign funds to specific purposes
 - The School Board passed a board motion authorizing assignments for activities as contemplated by the Board
- *Unassigned* - includes positive fund balance within the General Fund which has not been classified within the above mentioned categories and negative fund balances in other governmental funds

In governmental funds when an expenditure is incurred that can be paid using either restricted or unrestricted resources, the District's policy is generally to first apply the expenditure toward restricted fund balance and then to unrestricted resources. When an expenditure is incurred that can be paid using either committed, assigned or unassigned amounts, the District's policy is to use committed resources, then to use assigned resources, then to use unassigned resources.

Eliminations and Internal Balances

Transactions and balances between governmental activities have been eliminated in the government-wide financial statements. Residual amounts due between governmental and business-type activities are labeled "internal balances" on the statement of net position.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

New Accounting Pronouncement

The District adopted GASB Statement No. 87, *Leases*, for the year ended June 30, 2022. This Statement establishes a single model for lease accounting based on the foundational principle that leases represent the financing of the right-to-use asset. The adoption of this standard did not materially impact the District's governmental activities capital assets and lease liability, but did expand note disclosures.

2. Joint Ventures

The District and other surrounding educational agencies created a joint venture, the Lycoming County Insurance Consortium Pooled Trust (the Trust). The District self-insures through the Trust for certain health care benefits it provides to current and former employees. The Trust has purchased an excess policy which covers employee health benefit claims in excess of \$375,000. Claims are recognized as an expense when paid (cash basis), which management believes is not materially different from the accrual basis for the year ended June 30, 2022. The District made payments for health care benefit claims approximating \$8,050,000 to the Trust during the fiscal year ended June 30, 2022. Audited financial statements of the Trust are available in the District's Business Office.

3. Deposits With Financial Institutions and Investments

Primary Government

The District's investment policy was established pursuant to the Public School Code of 1949, Section 440.1, which permits monies to be invested in: U.S. Treasury bills, short-term obligations of the U.S. government or its agencies or instrumentalities, savings or time accounts, or share accounts of institutions insured by the Federal Deposit Insurance Corporation (FDIC) or National Credit Union Share Insurance Fund (NCUSIF) to the extent that such accounts are so insured, and, for any amounts above the insured maximum provided that the approved collateral as provided by law therefore shall be pledged by the depository; obligations of the United States of America or any of its agencies or instrumentalities backed by the full faith and credit of the United States of America, and; the Commonwealth of Pennsylvania or any of its agencies or instrumentalities backed by the full faith and credit of the political subdivision. At June 30, 2022, the District's cash and cash equivalents and restricted assets include deposits with local financial institutions, PLGIT and PSDLAF and various petty cash balances, \$2,500, held throughout the District.

Investments, Primary Government

The following table provides a summary, by fund, of the District's investments at June 30, 2022:

Investments	General Fund	Capital Projects	Food Service	Debt Service	EIT Fund	Total
U.S. Treasury Bonds	\$ -	\$ -	\$ -	\$ 25,341,775	\$ -	\$ 25,341,775

Notes to Financial Statements

June 30, 2022

The District categorizes its fair value measurements within the fair value hierarchy established by GAAP. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The District has the following recurring fair value measurements as of June 30, 2022:

- U.S. Treasury securities totaling \$25,341,775 are valued at fair value based upon quoted prices for similar securities. (Level 2).

PLGIT is a common law trust organized to provide Pennsylvania local governments with a convenient method of pooling their cash for temporary investment. PLGIT functions similarly to a money market fund, seeking to maintain a net asset value of \$1 per share. Participants purchase "shares" in PLGIT, which invests the proceeds in obligations of the United States Government, its agencies or instrumentalities; obligations of the Commonwealth of Pennsylvania, its agencies, instrumentalities or political subdivisions; and deposits in savings accounts, time deposits or share accounts of institutions insured by the Federal Deposit Insurance Corporation to the extent that such accounts are so insured, and for any amounts above the insured maximum, provided that approved collateral as provided by law is pledged by the depository. Shares may be withdrawn at any time in any amount, with no liquidity fees or redemption gates. PLGIT/PLGIT PLUS have received an "AAAm" rating from Standard & Poor's, an independent credit rating agency. At June 30, 2022, the carrying amount and bank balance of the District's deposits with PLGIT was \$26,025,785. In addition, the District purchased a certificate of deposit through PLGIT with a carrying amount and bank balance of \$500,000 at June 30, 2022.

PSDLAF is a common law trust organized to provide Pennsylvania School Districts with a convenient method of pooling their cash for temporary investment. Assets with PSDLAF are invested in accordance with Title 24 of the Pennsylvania Statutes Article 4, Section 440.1 (2001). Each participant owns shares of PSDLAF, which invests the pooled assets. Such assets are not considered deposits pursuant to GASB Nos. 3 and 40, and as such are not subject to custodial credit risk. Due to the short-term nature and liquidity of the investments held within these pools, the fair value of the underlying investments approximates amortized cost. Shares with PSDLAF may be withdrawn at any time in any amount, with no liquidity fees or redemption gates. At June 30, 2022, the carrying amount and bank balance of the District's deposits with PSDLAF was \$5,850,949.

The District places no limits on the amount it may invest in any one issuer.

GASB Statement No. 40, *Deposit and Investment Risk Disclosures*, requires disclosures related to the following deposit and investment risks; credit risk, custodial credit risk, concentration of credit risk, interest rate risk and foreign currency risk.

The following is a description of the District's deposit and investment risks.

Deposits

Custodial Credit Risk - Custodial credit risk is the risk that in the event of a bank failure, the District will not recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The District does not have a formal deposit policy for custodial credit risk. As of June 30, 2022, the carrying amount of the District's deposits with local financial institutions was \$15,953,291 and the bank balance was \$16,602,143. Of the bank balance, \$16,319,938 was exposed to custodial credit risk, as these deposits were not covered by depository insurance. Rather, these deposits were collateralized by the financial institution via a pool of pledged securities.

Investments

As of June 30, 2022, the District had the following investments:

<u>Investment</u>	<u>Maturities</u>	<u>Fair Value</u>
PLGIT	N/A	\$ 26,025,785
Certificates of deposit	Average of less than 1 year	500,000
U.S. treasury securities	Average of 7 years	25,341,775
PSDLAF	N/A	5,850,949
Total		<u>\$ 57,718,509</u>

Credit Ratings

The District's investments had the following credit ratings:

<u>Investment</u>	<u>Credit Rating</u>	<u>Percentage</u>
PLGIT	AAAm	45.6 %
Certificates of deposit	N/A	0.9
U.S. treasury securities	N/A	43.5
PSDLAF	N/A	10.0

Interest Rate Risk

The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. At June 30, 2022, all of the District's investments, outside of PLGIT and PSDLAF, were held by Wells Fargo, and were insured by SIPC up to \$500,000 per account.

Component Unit

The carrying values of the Foundation's investments are summarized by investment type as follows:

Equity based mutual funds	\$ 985,394
Fixed income based mutual funds	689,649
Alternative mutual funds	173,219
Corporate bonds	44,892
U.S. government bonds and notes	39,599
Total	<u>\$ 1,932,753</u>

The Foundation carries its investments at fair value. Mutual funds totaling \$1,848,262 are carried at fair value based upon quoted prices in active markets for identical assets (Level 1). Corporate and U.S. government debt securities totaling \$84,491 are carried at fair value based upon quoted prices for similar securities (Level 2). For the year ended June 30, 2022, unrestricted investment loss totaled \$247,550, including interest and dividends of \$47,297 and net realized and unrealized securities loss of \$294,847.

4. Property Taxes

The District's tax rate for the year ended June 30, 2022 was 17.24 mills (\$17.24 per \$1,000 of assessed valuation) as levied by the Board of School Directors. The Board of School Directors also levies real estate transfer tax, earned income tax and net profits tax. The tax rates under Act 511 are 0.5% of each real estate transaction in the District and 1% of all income earned by the residents of the District. The schedule for real estate taxes levied for each fiscal year is as follows:

July 1	Levy Date
July 1 - August 31	2% Discount Period
September 1 - October 31	Face Payment Period
November 1 - June 30	10% Penalty Period
June 30	Lien Date

Estimated collectible delinquent real estate taxes at June 30, 2022 were as follows:

<u>Outstanding Balance</u>	<u>Estimated Uncollectible</u>	<u>Estimated Collectible</u>
\$ 1,919,338	\$ 182,799	\$ 1,736,539

Taxes receivable, net, on the statement of net position also includes \$1,102,156 of earned income and transfer taxes receivable, in addition to the real estate taxes receivable shown above.

Tax Abatement Programs

The District provides property tax abatements under certain programs: the Local Economic Revitalization Tax Assistance Program (LERTA) and the Clean and Green Program.

The LERTA provides property tax abatements to provide a tax break to new commercial properties in certain sections of the District for five years as a way to stimulate business and economic growth. The abatements apply to the assessed value of improvements to a property. For the first year, 100% of the improvements are abated, subsequent years are reduced by 20% each year in the five year period.

The Clean and Green Program is a preferential tax assessment program that bases property taxes on use values rather than fair market values. This ordinarily results in a tax savings for landowners. The Pennsylvania General Assembly enacted the program in 1974 as a tool to encourage protection of the Commonwealth's valuable farmland, forestland and open spaces. A property must be ten acres in size and in Agricultural Use, Agricultural Reserve or Forest Reserve. Agricultural Use applications may be less than ten acres in size if the property is capable of generating at least \$2,000 annually in farm income.

Information relevant to the disclosure of these programs for the fiscal year ended June 30, 2022, is as follows:

<u>Tax Abatement Program</u>	<u>Amount of Taxes Abated During Fiscal 2022</u>
LERTA Program	\$ 30,926
Clean and Green Program	327,565

5. Due From Other Governments

Due from other governments at June 30, 2022 is summarized below:

	<u>Federal</u>	<u>State</u>	<u>Local</u>	<u>Total</u>
General Fund	\$ 675,056	\$ 4,463,122	\$ 1,039,608	\$ 6,177,786
Food Service	97,884	8,450	-	106,334
Internal Service Fund	-	10,177	-	10,177
Total	<u>\$ 772,940</u>	<u>\$ 4,481,749</u>	<u>\$ 1,039,608</u>	<u>\$ 6,294,297</u>

The amount due from local governments consists of IDEA revenues (federal funding passed through the local intermediate unit) earned during fiscal 2022 that had yet to be provided to the District at June 30, 2022 (General Fund). State sources receivables consist of basic, vocational and transportation subsidies as well as social security/retirement and rental sinking fund reimbursements due from the Pennsylvania Department of Education (PDE). Federal source receivables consist of federal programs passed through PDE, wherein the District incurred related expenditures prior to June 30, 2022, but had yet to be reimbursed at year-end. In addition to the above, the District's governmental activities includes a \$1,044,600 federal subsidy receivable on accrued interest payable on the District's federally subsidized Qualified School Construction Bonds.

6. Capital Assets

Williamsport Area School District Other Postemployment Benefits Plan

General Information, Plan Description and Benefits Provided

The District's single employer defined benefit OPEB plan, the Williamsport Area School District Other Postemployment Benefits Plan, provides certain postemployment medical, prescription drug and life insurance coverage for its administrators, teachers, confidential administrative support personnel (secretaries), support personnel and dependent spouses, with defined premium sharing requirements. In addition, if such personnel are not eligible for the District subsidy but are otherwise eligible for Act 110/43 (COBRA) benefits, the member and spouse may continue benefits by paying the full premium. Administrators must complete five years with the District, teachers must complete 25 years with PSERS and 15 years with the District, secretaries must complete 15 years with the District, and support personnel must complete 15 years with the District and retire under superannuation (age 60 with 30 years of service, age 62 with one year of service, or 35 years of service regardless of age). The cost of such coverage for retirees and spouses is primarily funded through annual appropriations from the District's General Fund. The plan is unfunded and no financial report is prepared. These benefits are accounted for in accordance with GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. The Williamsport Area School District OPEB Plan is a single employer defined benefit OPEB plan administered by the District. No assets are accumulated in a trust that meet the criteria in paragraph 4 of GASB Statement No. 75.

Actuarial Assumptions and Other Inputs

The total OPEB liability was determined by an actuarial valuation as of July 1, 2020, rolled forward to June 30, 2021 using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Interest rate	2.28%
Salary increases	2.5% cost of living adjustment, 1% real wage growth and for teachers and administrators a merit increase which varies by age from 2.75% to 0%
Discount rate	2.28%
Healthcare cost trend rates	5.5% in 2020 through 2023. Rates gradually decrease from 5.4% in 2024 to 4.0% in 2075 and later based on the society of Actuaries Long-Run Medical Cost Trend Model
Retirees' share of benefit-related costs	Retiree contributions are assumed to increase at the same rate as the Health Care Cost Trend Rate. However, the first year trend assumption was adjusted to account for short-term rate caps

The discount rate was based on S&P Municipal Bond 20 Year High Grade Rate Index at July 1, 2021.

For mortality rates, separate rates are assumed preretirement and postretirement using the rates assumed in the PSERS defined benefit pension plan actuarial valuation. Incorporated into the table are rates projected generationally by the Buck Modified 2016 projection scale to reflect mortality improvement.

PSERS Health Insurance Premium Assistance Program

General Information About the PSERS Health Insurance Premium Assistance Program

PSERS provides Premium Assistance which is a governmental cost sharing, multiple-employer OPEB plan for all eligible retirees who qualify and elect to participate. Employer contribution rates for Premium Assistance are established to provide reserves in the Health Insurance Account that are sufficient for the payment of Premium Assistance benefits for each succeeding year. Effective January 1, 2002 under the provisions of Act 9 of 2001, participating eligible retirees are entitled to receive premium assistance payments equal to the lesser of \$100 per month or their out-of-pocket monthly health insurance premium. To receive premium assistance, eligible retirees must obtain their health insurance through either their school employer or the PSERS' Health Options Program (HOP). As of June 30, 2022, there were no assumed future benefit increases to participating eligible retirees.

Premium Assistance Eligibility Criteria

Retirees of PSERS can participate in the Premium Assistance program if they satisfy the following criteria:

- Have 24½ or more years of service, or
- Are a disability retiree, or
- Have 15 or more years of service and retired after reaching superannuation age, and
- Participate in the HOP or employer-sponsored health insurance program.

Employer Contributions

The District's contractually required contribution rate for the fiscal year ended June 30, 2022 was 0.80% of covered payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to PSERS from the District were \$329,019 for the year ended June 30, 2022.

OPEB Liabilities, OPEB Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2022, the District reported a liability of \$6,696,000 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2021, and the total OPEB liability used to calculate the net OPEB liability was determined by rolling forward PSERS' total OPEB liability as of June 30, 2020 to June 30, 2021. The District's proportion of the net OPEB liability was calculated utilizing the employer's one-year reported covered payroll as it relates to the total one-year reported covered payroll. At June 30, 2022, the District's proportion was 0.2825%, which was a decrease of 0.0024% from its proportion measured as of June 30, 2021.

Actuarial Assumptions

The Total OPEB liability as of June 30, 2021, was determined by rolling forward the System's Total OPEB liability as of June 30, 2020 to June 30, 2021 using the following actuarial assumptions, applied to all periods included in the measurement:

- Actuarial cost method, Entry Age Normal, level percent of pay
- Investment return 2.18%, S&P 20 Year Municipal Bond Rate
- Salary growth, effective average of 4.5%, comprised of inflation of 2.50% and 2.00% for real wage growth and for merit or seniority increases
- Premium Assistance reimbursement is capped at \$1,200 per year
- Assumed Healthcare cost trends were applied to retirees with less than \$1,200 in premium assistance per year
- Mortality rates were based on a blend of 50% PubT-2010 and 50% PubG-2010 Retiree Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version on the MP-2020 Improvement Scale;
- Participation rate:
 - Eligible retirees will elect to participate Pre age 65 at 50%
 - Eligible retirees will elect to participate Post age 65 at 70%

Williamsport Area School District

Notes to Financial Statements
June 30, 2022

The actuarial assumptions used in the June 30, 2020 valuation were based on the results of an actuarial experience study that was performed for the five-year period ended June 30, 2015.

The following assumptions were used to determine the contribution rate:

- The results of the actuarial valuation as of June 30, 2019 determined the employer contribution rate for fiscal year 2021
- Cost method: Amount necessary to assure solvency of Premium Assistance through the third fiscal year after the valuation date
- Asset valuation method: Market value
- Participation rate: 63% of eligible retirees are assumed to elect premium assistance
- Mortality Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2015 Mortality Improvement Scale.

Investments consist primarily of short-term assets designed to protect the principal of the plan assets. The expected rate of return on OPEB plan investments was determined using the OPEB asset allocation policy and best estimates of geometric real rates of return for each asset class.

The OPEB plan's policy in regard to the allocation of invested plan assets is established and may be amended by the PSERS Board. Under the program, as defined in the retirement code employer contribution rates for Premium Assistance are established to provide reserves in the Health Insurance Account that are sufficient for the payment of Premium Assistance benefits for each succeeding year.

OPEB, Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Cash	79.8 %	0.1 %
U.S. Core fixed income	17.5	0.7
Non U.S. developed fixed	2.7	(0.3)
	<u>100.0 %</u>	

The above was the PSERS Board's adopted asset allocation policy and best estimates of geometric real rates of return for each major asset class as of June 30, 2021.

Discount Rate

The discount rate used to measure the Total OPEB liability was 2.18%. Under the plan's funding policy, contributions are structured for short-term funding of Premium Assistance. The funding policy sets contribution rates necessary to assure solvency of Premium Assistance through the third fiscal year after the actuarial valuation date. The Premium Assistance account is funded to establish reserves that are sufficient for the payment of Premium Assistance benefits for each succeeding year. Due to the short-term funding policy, the OPEB plan's fiduciary net position was not projected to be sufficient to meet projected future benefit payments, therefore the plan is considered a "pay-as-you-go" plan. A discount rate of 2.18% which represents the S&P 20 Year Municipal Bond Rate at June 30, 2021, was applied to all projected benefit payments to measure the total OPEB liability.

Sensitivity of PSERS Net OPEB Liability to Change in Healthcare Cost Trend Rates

Healthcare cost trends were applied to retirees receiving less than \$1,200 in annual Premium Assistance. As of June 30, 2021, retirees Premium Assistance benefits are not subject to future healthcare cost increases. The annual Premium Assistance reimbursement for qualifying retirees is capped at a maximum of \$1,200.

The following presents PSERS' net OPEB liability for June 30, 2021 calculated using current Healthcare cost trends as well as what PSERS' net OPEB liability would be if its health cost trends were 1-percentage-point lower or 1-percentage-point higher than the current rate:

	<u>1% Decrease</u>	<u>Current Trend Rate</u>	<u>1% Increase</u>

12. Termination Benefits

Under the Consolidated Omnibus Budget Reconciliation Act (COBRA), the District makes available health care benefits to eligible former employees and their dependents. Requirements are outlined by the federal government for this coverage. This program is offered up to a period of 18 months (36 months for an employee with dependents) after an employee's termination date. At June 30, 2022, there were five participants covered under COBRA.

13. Retirement Plan

Plan Description

PSERS is a governmental cost-sharing, multiple-employer defined benefit pension plan that provides retirement benefits to public school employees of the Commonwealth of Pennsylvania. The members eligible to participate in PSERS include all full-time public school employees, part-time hourly public school employees who render at least 500 hours of service in the school year, and part-time per diem public school employees who render at least 80 days of service in the school year in any of the reporting entities in Pennsylvania. PSERS issues a publicly available financial report that can be obtained at www.pfers.state.pa.gov.

Benefits Provided

PSERS provides retirement, disability and death benefits. Members are eligible for monthly retirement benefits upon reaching (a) age 62 with at least one year of credited service; (b) age 60 with 30 or more years of credited service; or (c) 35 or more years of service regardless of age. Act 120 of 2010 (Act 120) preserves the benefits of existing members and introduced benefit reductions for individuals who become new members on or after July 1, 2011. Act 120 created two new membership classes, Membership Class T-E (Class T-E) and Membership Class T-F (Class T-F). To qualify for normal retirement, Class T-E and Class T-F members must work until age 65 with a minimum of three years of service or attain a total combination of age and service that is equal to or greater than 92 with a minimum of 35 years of service. Benefits are generally equal to 2% or 2.5%, depending on membership class, of the member's final average salary (as defined in the Code) multiplied times the number of years of credited service. For members whose membership started prior to July 1, 2011, after completion of five years of service, a member's right to the defined benefits is vested and early retirement benefits may be elected. For class T-E and Class T-F members, the right to benefits is vested after ten years of service.

Participants are eligible for disability retirement benefits after completion of five years of credited service. Such benefits are generally equal to 2% or 2.5%, depending upon membership class, of the member's final average salary (as defined in the Code) multiplied by the number of years of credited service, but not less than one-third of such salary nor greater than the benefit the member would have had at normal retirement age. Members over normal retirement age may apply for disability benefits.

Death benefits are payable upon the death of an active member who has reached age 62 with at least one year of credited service (age 65 with at least three years of credited service for Class T-E and Class T-F members) or who has at least five years of credited service (ten years for Class T-E and Class T-F members). Such benefits are actuarially equivalent to the benefit that would have been effective if the member had retired on the day before death.

Employer Contributions

The District's contractually required contribution rate for the fiscal year ended June 30, 2022 was 34.14% (including the defined contribution rate of 0.15%, which is an estimate) of covered payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to PSERS from the District were \$13,979,186 for the year ended June 30, 2022.

Pension Liabilities, Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources

At June 30, 2022, the District reported a liability of \$115,698,000 for the proportionate share of the PSERS net pension liability. The PSERS net pension liability was measured as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by rolling forward the PSERS total pension liability as of June 30, 2020 to June 30, 2021. The District's proportion of the PSERS net pension liability was calculated utilizing the employer's one-year reported contributions as it relates to the total one-year reported contributions. At June 30, 2022, the District's proportion was 0.2818%, which was a decrease from its proportion measured as of June 30, 2021 of 0.0022%.

For the year ended June 30, 2022, the District recognized pension expense of approximately \$5,497,000. At June 30, 2022, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Changes in proportion between Governmental and Business-Type Activities	\$ 300,105	\$ 300,105
Difference between expected and actual experience	85,000	1,520,000
Net difference between projected and actual earnings on pension plan investments	-	18,417,000
Change in assumptions	5,612,000	-
Changes in proportion and differences between District contributions and proportionate share of contributions	-	1,915,000
District contributions subsequent to the measurement date	<u>13,979,186</u>	<u>-</u>
Total	<u>\$ 19,976,291</u>	<u>\$ 22,152,105</u>

\$13,979,186 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Years ending June 30:	
2023	\$ (4,712,000)
2024	(2,989,000)
2025	(2,504,000)

Changes in Actuarial Assumptions

The total pension liability as of June 30, 2021 was determined by rolling forward the System's total pension liability as of the June 30, 2020 to June 30, 2021 using the following actuarial assumptions, applied to all periods included in the measurement:

- Actuarial cost method, Entry Age Normal, level percent of pay.
- Investment return, 7.00%, includes inflation at 2.50%.
- Salary growth, effective average of 4.50%, comprised of inflation of 2.50% and 2.00% for real wage growth and for merit or seniority increases.
- Mortality rates were based a blend of 50% 50% PubT-2010 and 50% PubG-2010 Retiree Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version on the MP-2020 Improvement Scale;
- The discount rate used to measure the Total Pension Liability decreased from 7.25% as of June 30, 2020 to 7.00% as of June 30, 2021.
- Demographic and economic assumptions approved by the PSERS Board for use effective with the June 30, 2021 actuarial valuation:
 - Salary growth rate - decreased from 5.00% to 4.50%.
 - Real wage growth and merit or seniority increases (components for salary growth) - decreased from 2.75% and 2.25% to 2.50% and 2.00%, respectively.
 - Mortality rates - Previously based on the RP-2014 Mortality tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2015 Mortality Improvement Scale. Effective with the June 30, 2021 actuarial valuation, mortality rates are based on a blend of 50% PubT-2010 and 50% PubG-2010 Retiree Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version on the MP-2020 Improvement Scale.

The actuarial assumptions used in the June 30, 2021 valuation were based on the results of an actuarial experience study that was performed for the five-year period ended June 30, 2020.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The pension plan's policy in regard to the allocation of invested plan assets is established and may be amended by the Board. Plan assets are managed with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the pension.

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Global public equity	27.0 %	5.2 %
Private equity	12.0	7.3
Fixed income	35.0	1.8
Commodities	10.0	2.0
Absolute return	8.0	3.1
Infrastructure/MLPs	8.0	5.1
Real estate	10.0	4.7
Cash	3.0	0.1
Leverage	(13.0)	0.1
	100.0 %	

The above was the PSERS Board's adopted asset allocation policy and best estimates of geometric real rates of return for each major asset class as of June 30, 2021.

Discount Rate

The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the District's proportionate share of the net pension liability, calculated using the discount rate of 7.00%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00%) or 1-percentage-point higher (8.00%) than the current rate:

	1% Decrease (6.00%)	Current Discount Rate (7.00%)	1% Increase (8.00%)
District's proportionate share of the net pension liability	\$ 151,858,000	\$ 115,698,000	\$ 85,195,000

16. Significant Group Concentrations of Credit Risk

The District's operations are located in the County of Lycoming, Pennsylvania. Its service area is located within the geographic bounds of the District. The District assesses taxpayers, within its service area, based upon taxing powers at its disposal. The ability of each of the District's taxpayers to honor their assessed obligations to the District is dependent upon economic and other factors affecting the taxpayers.

17. Contingencies

The District participates in both state and federally assisted grant programs. These programs are subject to program compliance audits by the grantors or their representatives. The District is potentially liable for any expenditure which may be disallowed pursuant to the terms of these grant programs. Management is not aware of any material items of noncompliance that may result in the disallowance of program expenditures.

The District is involved, from time to time, in various legal actions. In the opinion of the District, these matters are either adequately covered by insurance or will not have a material effect on the District's financial statements.

18. Non Monetary Transactions

The District receives USDA donated commodities in the Food Service Fund. These donated commodities are valued at an estimated market value and recognized as federal revenue with unused commodities recorded as inventory. The total food commodities recognized as revenue in connection with this program for fiscal year 2022 totaled \$166,218.

19. Transactions With Other LEAs

The District is a member of B.L.a.S.T. Intermediate Unit 17. Through the membership, the District is able to secure various special services, including special education.

20. Effect of New Accounting Standards on Current-Period Financial Statements

The (GASB) has approved the following:

Statement No. 91, *Conduit Debt Obligations*

Statement No. 92, *Omnibus 2020*

Statement No. 93, *Replacement of Interbank Offered Rates*

Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*

Statement No. 96, *Subscription-Based Information Technology Arrangements*

Statement No. 97, *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans*

Statement No. 99, *Omnibus 2022*

Statement No. 100, *Accounting Changes and Error Corrections*

Statement No. 101, *Compensated Absences*

District management is in the process of evaluating these standards. When they become effective, application of these standards may restate portions of these financial statements.

21. Subsequent Event

In July 2022, the District issued its General Obligation Bonds, Series of 2022, in the maximum principal amount of \$9,275,000, bearing interest at 4.00% per annum, due in varying semi-annual installments of principal and interest through maturity in 2038 to provide funding towards the costs of planning, designing, acquiring, constructing, furnishing and equipping additions, renovations and improvement to the District's existing school buildings and grounds, including but not limited to Lycoming Valley Intermediate School and to pay the costs of issuing and insuring the bonds.

Independent Auditors' Report

To the Board of Directors of
Williamsport Area School District

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Williamsport Area School District (the District), as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated December 15, 2022.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**Report on Compliance
for Each Major Federal Program and
Report on Internal Control Over Compliance
Required by the Uniform Guidance**

Independent Auditors' Report

To the Board of Directors of
Williamsport Area School District

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited the Williamsport Area School District's (the District) compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2022. The District's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

In our opinion, the District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2022.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation and maintenance of effective internal controls over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the District's federal programs.

Auditors' Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as described above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Notes to Schedule of Expenditures of Federal Awards
Year Ended June 30, 2022

1. Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) presents the federal award activity of the Williamsport Area School District (the District) under programs of the federal government for the year ended June 30, 2022. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a select portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position (deficit) or cash flows of the District.

2. Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the accrual basis of accounting for the Child Nutrition Cluster and the modified accrual basis of accounting for all remaining programs. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule, if any, represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. Pass-through entity identifying numbers are presented where available.

The underlying accounting records for some grant programs, primarily those involving governmental activities (i.e., General Fund), are maintained on the modified accrual basis of accounting. Under the modified accrual basis, revenues are recorded when susceptible to accrual, i.e., both measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are recorded when the liability is incurred. The accounting records for other grant programs, including those involving business-type activities (i.e., Food Service Fund), are maintained on the accrual basis, i.e., when the revenue has been earned and the liability is incurred.

3. Relationship to Federal Financial Reports

Amounts reported in the accompanying Schedule agree with the amounts reported in the related federal financial reports.
