

Bring Your own Technology (B.Y.O.T.) Agreement

The use of technology to provide educational material is not a necessity but a privilege. A User does not have the right to use his or her laptop, cell phone or other electronic device while at school. When abused, privileges will be taken away. When respected, they will benefit the learning environment as a whole.

Users and parents/guardians participating in B.Y.O.T. must adhere to all school district policies (e.g., Electronic Devices; Acceptable Use of Internet (AUP), Computers and Network Resources; Social Media).

By signing the agreement below, the user is responsible for the following:

- Take full responsibility for his or her device and keeping it with himself or herself at all times. The school is not responsible for the security, repair or maintenance of the device, or supporting applications on the device.
- Register the device with the Technology department prior to being granted network access.
- Keep the device in silent mode while on school campuses and while riding school buses.
- Refrain from recording, transmitting or posting photographic images or video of persons on campus during school hours/activities.
- Access only files on the computer or internet sites which are relevant to the classroom curriculum. Games are not permitted.
- Comply with teachers' requests to shut down the device or close the screen.
- Acknowledge that the school's network filters will be applied to one's connection to the internet and will not attempt to bypass them.
- Understand that bringing on premises or infecting the network with a Virus, Trojan, or program designed to damage, alter, destroy, or provide access to unauthorized data or information is in violation of the AUP policy and will result in disciplinary actions.
- Realize that processing or accessing information on school property related to "hacking", altering, or bypassing network security policies is in violation of the AUP policy and will result in disciplinary actions.
- Understand that printing from personal devices will not be possible at school.
- Charge device prior to bringing it to school. Device must run off its own battery while at school.

Note: The school district has the right to collect and examine any device that is suspected of causing problems or was the source of an attack or virus infection. I understand and will abide by the above guidelines. I further understand that any violation is unethical and may result in the loss of my network and/or device privileges as well as other disciplinary action.
